Developer Tools: Git, GitHub, Jira, VS Code, Visual Studio, Figma, GitLens, Eclipse, Android Studio

PROFESSIONAL EXPERIENCE

Fullstack Developer

Aug 2024 – Present

DraftEQ

Remote

- Architected role-based authentication system with Supabase Auth, integrating SMTP/SMS providers and MFA, achieving **99.9%** security compliance
- Developed 15+ custom Edge Functions for real-time data processing and third-party integrations, reducing response time by **45%**
- Implemented complex migrations and RLS policies using Supabase CLI, optimizing query performance by **30%**
- Engineered scalable file management system with Supabase Storage, handling 1TB+ media assets with automated optimization
- Architected and implemented complex workflow builder using React Flow, achieving **40%** improvement in interaction

React Frontend Developer

Dec 2021 – Jul 2024

Tech Sierra

Thane, Maharashtra, India

- Spearheaded frontend development and mentored junior team, driving **35%** user engagement and **25%** productivity gains. Led cross-functional development of React/Redux applications, implementing engineering best practices
- Project: YouVet
 - * Architected reusable UI components in React Native Expo with Clerk authentication, improving development efficiency by **40%**
 - * Integrated Google Maps API and data visualization charts, achieving **99%** mobile responsiveness
- Project: KornFerry
 - * Enhanced web accessibility by making webpages compliant with WCAG guidelines, utilizing tools such as Accessibility Insights for Web and color contrast checkers.
 - * Created dynamic report generation system using react-pdf, reducing report creation time by **50%**
 - * Operated effectively in an Agile environment, participating in daily scrum calls, providing regular status updates, and adapting to changing project requirements, Utilized Jira software for project management
- Project: Hudini
 - * Developed PWA for hotel check-in, reducing guest wait times by **25%**
 - * Implemented real-time data synchronization, achieving **99.9%** system reliability

React Frontend Developer

Jan 2021 – Jul 2021

Alpha5 Exchange

Remote

- Gained in-depth knowledge of cryptocurrency markets and blockchain technology.
- Studied cryptocurrency trading, market trends, strategies, and risk management.

PERSONAL PROJECTS

react-hooks.in | *Next.js, MongoDB, TailwindCSS* | **LIVE**

CODE

- React learning platform featuring 41 custom hooks and interactive demos showcasing practical implementations for interview prep

houcelink properties | *Remix, emailJs, TailwindCSS* | **LIVE**

CODE

- Developed a Remix real estate platform with minimalist UI using TailwindCSS and EmailJS integration

Additional Projects

mh-forts, Polls, Food Ordering, copy-saver extension, AI cost calculator

Chrome Extensions

copySaver, LinkLite

EDUCATION

Siddhartha College of Arts, Science and Commerce

Mumbai, Maharashtra

Higher Secondary Education - Science Stream

2016 – 2018

AttainU

Fullstack Development BootCamp
